# Gender Dysphoria

## Why does the Left abuse the children and the mentally ill?

by Andrei V. Lefebvre

Three people died a violent death in Oakland, CA in November of 2016. The murderer shot a teacher, her lesbian companion and her 19-old son. Then, this deranged individual set the victims' house on fire. The person arrested for the crime was a man born with the name of David Warfield. The arrest report had a different name on it, however.

Warfield used to be a public schoolteacher in Sacramento. In 1999, he horrified the parents of his students by publicly admitting that he was suffering from a deadly mental disease called Gender Dysphoria (a delusion that a person was born in a wrong gendered body). Instead of seeking mental health treatment, this man changed his name to Dana Rivers and legally changed his gender to female.

As Rivers, he won accolades of the science-denying Left who celebrated him as a transgender woman. Sadly, California law does not recognize the science and caters to people suffering from a mental illness linked to depression, often resulting in a suicide. It is unclear if the crime this person is accused of has anything to do the Gender Dysphoria.

According to the Williams Institute survey, published in 2014, 41 percent of the people suffering from the Gender Dysphoria make an attempt on their own life. Only 4.6 percent of the general population attempt to kill themselves. The researchers believe that the rejection a person's own gender is a form of depression where the self is hated and scorned. Rather than focusing on the depression, the Left uses these mentally ill individuals to achieve their political goals. What the transgender activists refuse to disclose is the fact that the "transitioning" (an ugly euphemism for the unneeded hormone treatments and the surgical mutilations) does not prevent suicides. The desire to kill oneself do not change after the "gender reassignment" treatments, the Williams Institute survey showed.

While the transgender activists advocate for the sex change operation in children as young as 3, a noted sex researcher has found that there is a reason why some parents want to change the gender of their child. And, the reason has nothing to do with the child's mental disorder. Dr. Debra Soh, who spent most of her career studying human sex practices, believes that the homophobic parents would much rather have their children mutilated than admit that their offspring is gay. Dr. Soh found that an overwhelming majority of children who exhibit a desire to belong to the opposite gender, grow up to be well-adjusted, mentally healthy adults who prefer the same sex partners.

The transgender agenda has nothing to do with the civil rights or discrimination. Gender Dysphoria is a component of a dangerous suicidal mental disorder. Instead of saving lives, the Left has decided to use the mentally ill in order to destroy the traditional view of the family and to wage the political and the cultural war on the Western Judeo-Christian values. The reason is simple. The Left has embraced the Marxist, collectivist ideology which runs contrary to the Libertarian/Judeo-Christian traditions on the United States. Following a well-raveled road of such successful homicidal dictators of the

Left as Joseph Stalin, Mao Tse-Tung, Adolph Hitler, and Pol Pot, the Democrat political henchmen began the ideological cleansing campaign of the public school teachers. Any educator who refuses to deny science -- which unequivocally shows that there are only two genders -- is in danger of losing his job.

Here are just a few recent cases. The Children's Light House Center (pre-school) in Katy, Texas has fired two employees who refused to bow to the insanity of the Left and treated an abused 6-year-old girl as a girl. They refused to go along with the parents' and administrators' cruel desires to rob a child of her sanity and force her to believe that she is male. Peter Vlaming, a Virginia French language teacher, was fired by the West Point School Board for refusing to be compelled to use the scientifically wrong pronouns for a student suffering from the Gender Dysphoria. These are just the most recent publicized examples.

The Left is happy to abuse children to further their anti-family agenda. In 2013, the California lawmakers made it easy for the pedophile predators to stock their young victims in the public restrooms. It is perfectly legal in California for a grown man to follow a little girl into the restroom by claiming that he is a transgender woman.

Furthermore, the Left pushes the therapists to advise parents to switch genders of the healthy children. The medical doctors, after such recommendations, prescribe the

prepubescent children with puberty hormone blockers which – in their warped opinion – will change the gender in a healthy child. As a result, the children are caused an irreparable harm. The FDA has not been totally taken over by the science hating zealots and have not approved the puberty blockers for changing genders.

Why does the Left abuse the children and the mentally sick? Easy, the people who move the Left's agenda lack the Judeo-Christian values of the universal Right and Wrong. They are perfectly willing walk all over anyone to gain what they desire the most. What do they crave so uncontrollably?

The answer is easy: POWER
